EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicants' representative, Joseph Posillico on March 17, 2004.

The application has been amended as follows: in claim 10, line 1, the compound, 2,2-dichloroacetaldehyde, has been replaced by the phrase, "substituted acetaldehyde".

In claim, 1, line two, the word found therein has been replaced by the word, dichlorohydroxyacetaldehyde.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: applicants claim a process for removing water from a hydrofluorocarbon manufacturing process. The closest prior art of record, U.S. Patent 6,787,678, which has common inventors with the instant patent application, teaches a process for removing water from a hydrofluorocarbon manufacturing process wherein a carbonyl or a sulfur-containing compound is employed as a water reactive agent. The closest prior art of record, however, fails to teach or fairly suggest a process for removing water from a

hydrofluorocarbon manufacturing process using a chlorine-substituted vinyl compound as the water reactive agent, as claimed herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sikarl A. Witherspoon whose telephone number is 571-272-0649. The examiner can normally be reached on M-F 8:30-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on 571-272-0646. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
